**NEW MECHANISM**

In this product, we have implemented a new mechanism by German producer Hettich. This system is significantly improving door assembling efficiency as the wheel is on the sliding rail with one single step. Another great advantage is that even in the case of an eventual de-rail, the user can easily put the wheel back on the rail.

**PROVEN QUALITY – German mechanism with aluminium rails**  
Innovation in sliding mechanisms. With one single step, wheel can be put back on the rail.

**NOTE:** The complete code of an element is obtained by replacing stars\*\* with two digits of the displayed pattern.

MECHANISM

**EASY LEVELING** - Leveling the closet floor on 6 points

Below the wardrobe floor 6legs for easy leveling are installed. This is important for easy and silent door opening, and with the integrated Slow-Motion mechanism, very easy and slow closing.
